Oils & Waxes

To finish leather items with an outdoor look and feel, we offer a range of high-performance oils and waxes. The applications vary from shoes, bags and accessories to even upholstery. Using the oils and waxes, you can choose for a light to strong pull-up effect and for a dry, a silky, or a rich waxy feel. We also have solutions

that give your outdoor item a darker or crunchy effect. Our range can create diverse types of finishes. Such as standard pull-up oils and waxes, feel modifying and nubuck oils and water-resistant pull-up finishes for water-resistant or non water-resistant crusts. You'll find the main features of our products below.
